## DETAILED ACTION

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 3-6, 8, 10, 14-16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-6 of U.S. Patent No. 6,752,419. Although the conflicting claims are not identical, they are not patentably distinct from each other because the following reasons:

Claim 1 of U.S. Patent No. 6,752,419 read on every limitation of claims 1, 3-4 of the instant application.

Claim 2 of U.S. Patent No. 6,752,419 read on every limitation of claim 5 of the instant application.

Claim 3 of U.S. Patent No. 6,752,419 read on every limitation of claim 6 of the instant application.

Claims 4 and 6 of U.S. Patent No. 6,752,419 read on every limitation of claims 1 and 8 of the instant application.

Claim 5 of U.S. Patent No. 6,752,419 read on every limitation of claims 10 and 14-15 of the instant application.

Claim 6 of U.S. Patent No. 6,752,419 read on every limitation of claim 10 and 16 of the instant application.

### ***Response to Arguments***

3. Applicant's arguments filed August 8, 2005, with respect to the rejection of the claims under 35 U.S.C 103(a) have been fully considered and are persuasive. The rejection of claims 1-3, 5, 6-11, 13-14, and 16-17 has been withdrawn. However, the Double Patenting Rejection of claims 1, 3-6, 8, 10, 14-16 still maintains, since no Terminal Disclaimer has been submitted by applicant to overcome the Double patenting rejection.

***Allowable Subject Matter***

4. Claims 2, 7, 9, 11-13 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
